

FAQ

Vi Crunch® Fusions

A Fusion of Flavor, Crunch and Nutrition!

1. What is unique about Vi Crunch Fusions?

- Vi Crunch Fusions were specifically developed to provide additional flavors, crunch and supplemental nutrition to everyday foods.
- Convenient and easy to mix in your Vi Crunch® Cereal, Vi-Shape® Shakes, other favorite foods or eaten alone as a nutritious and delicious snack!
- Made with the finest ingredients for a burst of real berry or chocolate flavors.
- Enhanced with nutrition in every bite.

2. What are the primary benefits of Vi Crunch Fusions?

- Vi Crunch Fusions are a great way to pump up your favorite foods with flavor, crunch and nutrition:
 - ▶ Tri-Berry Puffs provide a burst of three flavors from real strawberries, raspberries and blueberries.
 - ▶ And, they include phytonutrients to help maintain good health.
 - ▶ Chocolate Macadamia Granola provides the taste of real chocolate and cocoa without the guilt.
 - ▶ And, it includes green coffee bean extract which contains powerful antioxidant benefits.
- No high fructose corn syrup (HFCS)
- No trans fat
- No cholesterol
- No artificial colors, flavors, sweeteners or preservatives
- Gluten-free, non-GMO, vegetarian and kosher

3. Okay, but how does it taste?

Vi Crunch Fusions use only the highest quality ingredients and natural flavors for a premium taste you and your family will love! Try both flavors and see for yourself!

4. How do I use Vi Crunch Fusions with my Challenge Kits?

For those managing their weight, Vi Crunch Fusions can be used as a delicious, nutritious and low-calorie snack to satisfy your in-between meal cravings. Vi Crunch Fusions can also be added into your Vi Crunch Cereal or Vi-Shape Shakes. For those engaged in active or fitness activities, Vi Crunch Fusions are a great snack while running, biking or hiking.

5. How do Vi Crunch Fusions measure up against other snacks?

Look at the world of snacks, and you'll see that most of them are high in sodium (crackers), sugar (candy bars), carbs (cookies) and fat (chips) but low on nutrition. Not only can processed snacks be high in calories, they also do not have the added nutritional benefits (from phytonutrients, green coffee bean extracts and the goodness from quality ingredients) that are found in both flavors of Vi Crunch Fusions.

6. What type of sweetener is found in Vi Crunch Fusions?

Chocolate Macadamia Granola is sweetened with rice syrup, sugar and honey, while the Tri-Berry Puffs variety is sweetened with sugar and fruit juices. Each flavor provides just 3 grams of sugar per serving.

7. Can kids eat Vi Crunch Fusions?

Children will absolutely find our Tri-Berry Puffs irresistible! This cereal topping was developed to be kid-friendly and uses only natural fruit flavors and colors. It also contains phytonutrients, which are found in fruits and vegetables, and have been found to help maintain good health. Each flavor has 3 grams sugar per serving. However, Chocolate Macadamia Granola contains green coffee bean extract, which may not be ideal for kids below 12 years old. Vi Crunch Fusions are not intended for children to use for weight loss.

8. Can I use Vi Crunch Fusions if I am pregnant or nursing?

Vi recommends that any woman who is pregnant or breastfeeding speak with her healthcare practitioner prior to using any ViSalus product.

9. Are Vi Crunch Fusions gluten-free?

Yes, both Vi Crunch Fusions flavors are now gluten-free!

10. Are the Vi Crunch Fusions ok for those watching their sugar intake?

Yes. Both Vi Crunch Fusions have only 3 grams of sugar per serving.
